

Comprehensive School Climate Inventory®

Measuring the Climate for Learning

STUDENT SURVEY FORM I: **ELEMENTARY STUDENTS**

Before you begin, please read the following information.

You are being asked to complete this survey as part of a project to help all members of the school community (students, parents, and school personnel) understand how everyone feels about your school.

- ✎ As you respond to each item, focus on your thoughts and feelings based on your own personal experiences as a student at your school.
- ✎ There **are no right or wrong answers**—this is not a test! We just want to know how you feel. Your responses will provide us with important information to help your school become even better.
- ✎ All your responses are **completely anonymous**, which means that no one will ever see how you filled out your survey.
- ✎ Survey results will be reported only for all students together or for groups of students, for example all fifth graders.
- ✎ The survey should take you approximately 20 minutes to complete.
